## Electric Power Generation & Transmission

Steptoe provides counsel to major energy producers, suppliers, foreign governments, pipelines, holding companies, and quasi-government entities on a wide range of energy transactional matters. We assist clients in the formation and negotiation of wholesale power and energy transactions, representing buyers, sellers and marketers.

Our energy transactional lawyers draft tariffs, standard form contracts, and transaction-specific agreements for these various transactions. We also have extensive experience assisting clients with pipeline financing, asset sales and purchases, joint ventures, leases, and other forms of agreements.
