On 13 November Lexxion Publisher will host, in cooperation with Steptoe & Johnson, a full-day conference on emerging issues concerning the regulation of biocides in Europe and beyond. Taking place in Frankfurt, the event will include speakers from industry and regulatory bodies as well as consultants. After each presentation you will have the opportunity to discuss your questions with relevant experts. The conference will end with a panel discussion on authorisation routes for biocidal products with industry, legal, technical and regulatory representatives sharing their perspectives.
