Antitrust Mergers, Acquisitions, & Joint Ventures

Steptoe’s antitrust team counsels clients at every stage of the merger review process: jurisdictional filing analyses, merger feasibility studies, remedies and structuring, and guiding transactions through enforcement agency investigations.

We appear before the Federal Trade Commission (FTC) and the Antitrust Division of the US Department of Justice (DOJ) as well as before the Directorate-General for Competition of the European Commission (DG COMP). We also handle premerger filings in many EU jurisdictions, including France, Germany, Italy, Spain, and the UK, and coordinate teams of local counsel in all countries with active merger control regimes, including China, Japan, South Korea, and Brazil among others.

We represent clients in many industries including chemicals, pharmaceuticals, electric utility and power generation, telecommunications, internet, airline, railroad, trucking, pipeline, IT, defense, maritime, financial services, and food production.
