Unmanned Aircraft Systems

Autonomous Vehicles are the latest technological advancement in transportation and the introduction of Highly Automated Vehicles (HAVs) brings a host of new regulatory and legal challenges to businesses in the automotive industry and beyond. Our lawyers are immersed in the regulatory approval process and regularly practice before all relevant agencies, including the National Highway Traffic Safety Administration (NHTSA), US Department of Transportation (DOT), National Transportation Safety Board (NTSB), and Federal Communications Commission (FCC). Our team regularly advises our clients on the ramifications of the continuous legal and technological developments arising in the autonomous vehicle industry.

Given the multidiscipline nature of the autonomous vehicle industry, our practice draws on the skills and experience of lawyers across a numerous practices such as:

- NTSB accident response
- Antitrust/EU competition
- Cybersecurity
- Export controls
- Government relations & public policy
- Government contracts
- Intellectual property
- Internet, telecom, & media
- Privacy & data protection
- Transportation
