The US Needs to Think About the Unthinkable on Cybersecurity

August 21, 2018

Author
Stewart A. Baker

Overview
Steptoe partner Stewart Baker authored an op-ed titled “The US Needs to Think About the Unthinkable on Cybersecurity” for The Washington Post. The op-ed, published August 21, discusses how the United States has pioneered the idea of fighting wars in cyberspace, but it’s their adversaries who are using cyberattacks most effectively.

Practices
Privacy & Cybersecurity
