Hunter Johnston and Jeff Weiss co-authored an article titled “Carbon Capture Policy Should Be Aligned For Global Adoption” for Law360. The article, published November 24, considers how the interests of multiple stakeholders may align around carbon capture, utilization and storage (CCUS), identifies some issues that must be resolved and makes recommendations for promoting global adoption of CCUS and decarbonized supply chains. The article is the final part of a four-part series about CCUS.

Overview
