Steptoe’s multidisciplinary food and life sciences team, based in Beijing, Brussels, and Washington works with clients to develop innovative compliance strategies for individual products and product lines. We advise clients on consumer protection legislation, risk management issues, and the regulatory aspects of the product development and marketing programs in the US, EU, and China. We have represented clients in this area for more than 25 years, and over that time our practitioners have gained a reputation for constructive engagement with the relevant industry bodies and regulators across the globe, including the US Food and Drug Administration (FDA), the US Department of Agriculture (USDA), the Environmental Protection Agency (EPA), the Federal Trade Commission (FTC), the European Food Safety Authority (EFSA), the Directorate General for Health and Food Safety at the European Commission (EC), EU Member State authorities, the European Chemicals Agency (ECHA), and China Food and Drug Administration.

We advise with regulatory compliance in:

- Food Safety, Food and Feed Compliance, & Food Contact Materials
- Life Sciences
